# Unique Skills –

## Blended Technology

## 56 Classroom sections in FY18

- Used in 26 high schools, including 5 district charter schools
- 16 pilot classrooms in fall semester
- 40 classrooms in spring semester
- Incorporates technology for local public transportation system
- Used 1 semester under Unique Skills 7963130 utilizing PB Virtual Canvas Platform
- Selected blended model to provide support and modifications to students on access points for whom traditional virtual courses were not appropriate

Per FL DOE\_-**An indicator of whether the student took this course under conditions that met the definition of a blended learning model as per s. 1003.499(1)(b) F.S. Blended learning is a formal education program in which a student learns at least in part through online delivery of content and instruction with some element of student control over time, place, path and/or pace, and at least in part at a supervised brick-and-mortar location away from home. The modalities along each student's learning path within a course or subject are connected to provide an integrated learning experience.**
